Complete® ProGrade Wide Crown Staplers

We are continuing to improve the Complete Nailer and Stapler line-up for 2018. Announcing our latest addition of **four** 16 gauge wide crown staplers models for Senco, Bostitch, and Paslode type staples.

These tools are designed for heavy duty use and high durability in a variety of applications ranging from pallet manufacturing, sheathing, crating, foam board insulation, and wire lathe. The tools feature lightweight, yet durable magnesium bodies. Each model comes with a quick clear noses, built in depth of drive control, and user selectable bump or sequential trigger options. Parts kits, and remote triggers are available upon request. Full model details below.
